

Kinetic Calendar is the **only online calendar built on BMC Remedy**, making it easy for developers to display any BMC Remedy time-based data in a calendar format.

Quick, easy way to view BMC Remedy data in an online calendar

- Anyone can view event details for simplifying task management.
- Approved users can create and modify events directly from the interface.
- Related events can be grouped on a single calendar—even if underlying information is spread across multiple BMC Remedy forms.

The only calendar-publishing tool built on BMC Remedy

- Display event information from BMC Remedy forms.
- Take advantage of BMC Remedy's underlying workflow capabilities to create active calendars that trigger workflow tasks.
- Integrate event information from other applications directly into Kinetic Calendar through BMC Remedy-based workflow.

Kinetic Calendar end user view.

Complete flexibility for creating actionable online calendars

- Create any type of calendar based on BMC Remedy event information such as on-call support scheduling, forward change, service appointments and more through easy integration to other applications.
- Events displayed in an online calendar can include any fields from any BMC Remedy data source.
- Online events viewer can be extended to display developer-defined dynamic HTML content via Java Server Pages (JSP).

Kinetic Calendar at-a-glance

- The only calendar publishing tool available built on BMC Remedy.
- Built for multiple uses: on-call calendars, SLA reviews, change request calendars and more.
- Displays any date- or time-related information from BMC Remedy or any related application in an active online calendar.
- Creates and shares actionable calendars across your organization.
- Links Kinetic Calendar events to related BMC Remedy data.
- Takes advantage of the BMC Remedy environment you already know.

Contact Kinetic Data to learn more about how the only tool for building active online calendars for BMC Remedy will keep your organization in sync.
